

Insulate + Generate with PowerPanel

The next generation roofing solution.
Futureproof your building.

PowerPanel combines high-performance QuadCore® thermal efficiency and leading photovoltaic technology - creating a single solution to future-proof buildings.

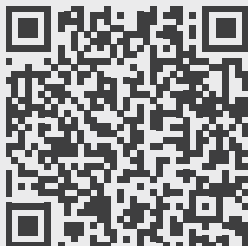

Insulate+Generate
with PowerPanel

This innovative system combines the thermal efficiency of Kingspan's industry-leading QuadCore® insulated panels with advanced solar technology, from LONGi.

Key benefits include:

- Tested to FM 4478 standard*
- U-values as low as 0.11 W/m²K
- Module energy output of up to 475Wp
- Slimline design
- Precision engineered
- Factory-controlled manufacturing

Benefits of choosing PowerPanel

- One of the first integrated solar roofing systems globally to achieve FM 4478 – an approval standard that states the requirements for roof systems incorporating rigid PV modules.
- Simplifies installation, reduces deliveries, minimises on-site risks and provides secure high thermal and operational carbon efficiency.
- Manufactured in the UK using leading quality-control methods and dependable UK and Ireland delivery.
- Blends high performance with a sleek, slimline design to enhance building aesthetics.
